**Anu Vaagen and Raili Laas** are trainers and coaches, working together with VET schools and companies in the green sector towards bringing schools and the labour market closer together. They have been involved in **Vocational Education and Training** since 2006. They have been **experts of VET curricula and also assessors of VET schools** since 2011.

They have been involved in international projects since 2008. They have led many EU projects on the forestry and landscaping field connected to EQF and ECVET.

Currently they are involved in green sector projects **European Green Mastery and European Platform for Urban Greening**.

They belong to the researchers' group of **Yebisu e.e.**, what focus is to strengthen the companies and education, empowering employees in the green sector. Their own company [Yebisu Estonia](#) has grown out of this community.
